Global Voices Climate Summit

Pathways to Sustainability: Empowering Green Growth

The Academic Development Open Virtual Hub (ADOVH) at the University of South Africa, in collaboration with The Dais, will host the Global Voices Climate Action Summit from February 18th to 20th, 2025. This event will gather young leaders to discuss "Pathways to Sustainability: Empowering Green Growth." Building on the success of their Model United Nations (UN) Massive Open Online Course (MOOC), which engaged nearly 800 participants, the summit will simulate the workings of the UN and other international organizations. It aims to enhance participants' skills in critical thinking, collaboration, empathy, and problem-solving while addressing the role of Green Technologies in combating Climate Change.

Dates and Time

 **Dates:** 18th February 2025

 **Time:** 14h00 to 16h00 (SAST)
