

Workshop Invite

Masterclass

Mobile Learning (m-Learning)

Join us for an empowering pilot dedicated to building digitally skilled m-learning students!

The Mobile Learning Masterclass was developed with the focus being on the digital online learner at the University of South Africa. The masterclass will focus on Understanding the fundamental skills needed to effectively use mobile devices, leveraging mobile technology to enhance your online learning experience at the University of South Africa (UNISA), exploring various apps and tools that can boost your productivity and streamline your study routines. The masterclass will be delivered through an online course with activities and workshops. The masterclass will contain the following units:

- Basic Mobile Literacy
- Using Mobile Devices for Online Learning within UNISA
- Using Mobile Productivity Tools/Apps

For information relating to the launch and workshops, you can email ADOVH@unisa.ac.za.
